EDUCATION

PES University

Master of Computer Applications (GPA: 7.6/10)

July 2026 (Expected)

Bangalore, Karnataka

College of Commerce, Arts and Science

Bachelor of Science in Information Technology (76% / GPA: 8/10)

June 2024

Patna, Bihar

Kendriya Vidyalaya Sangathan

Senior Secondary (Class XII), Science Stream (84.2%)

2021

Suratgarh, Rajasthan

Infant Jesus School

Secondary (Class X) (88.6%)

2019

Patna, Bihar

PROJECTS

Football Match Analysis System (Ongoing) *Python, OpenCV, YOLO, DeepLearning, OpticalFlow*

- Developing an AI-based system to analyze football matches using video footage.
- Detecting and tracking players, ball, and referee across frames using computer vision techniques.
- Computing ball possession percentage and per-player performance metrics such as speed and distance covered.
- Handling camera motion using motion compensation and applying perspective transformation to convert pixel data into real-world measurements.

Face Emotion Detector

Python, OpenCV, CNN, Flask

- Developed a face emotion detection system to identify emotions such as Happy, Angry, Neutral, Fear, and Surprise.
- Used OpenCV for face detection and CNN models for accurate emotion classification.
- Trained and tested the model for real-time emotion detection using webcam input.
- Integrated Flask to support both live detection and image upload for analysis.

Notes Sharing Platform (Notes Sphere)

Angular, Flask, MySQL

- Built a web-based platform for students to upload, store, and share academic notes securely.
- Designed a responsive and user-friendly interface using Angular, HTML, CSS, and JavaScript.
- Implemented user authentication and CRUD operations using Flask backend and MySQL database.
- Enabled users to manage personal notes and access shared resources efficiently.

TECHNICAL SKILLS

Programming Languages: C, Python, Java

Frontend: HTML, CSS, JavaScript, Angular, ReactJs

Backend: Flask, ExpressJS, NodeJS

AI/ML: Python (NumPy, Pandas, Matplotlib, Seaborn, scikit-learn, TensorFlow, Keras), Computer Vision (OpenCV, CNN)

Databases: MySQL, MongoDB, Oracle Database

Security Essentials: Cyber Security, Network Security, Ethical Hacking

ACHIEVEMENTS & EXTRA-CURRICULAR

- **Security Essentials Specialization (Ongoing)** – PES University. Includes coursework in Network Security, Cyber security, and Ethical Hacking. Certification will be awarded upon completion.
- **DSA in Python (GeeksforGeeks) – Ongoing:** Solved 100+ problems.
- Cisco Networking Academy: Enterprise Networking, Security and Automation. *Amity Patna, 2022*
- Cisco Networking Academy: Switching, Routing and Wireless Essentials. *Amity Patna, 2022*
